

TRANSPORTATION UNIFORM COLLECTIONS

The importance of the transportation and warehousing industry cannot be adequately communicated via facts and figures. Now, more than ever, the industry is in high focus and has been an area where movement equates to progress, and perspective to realize that the importance of the industry is measured in the men and women who keep America moving no matter the obstacle. No excuses, no quit, only perseverance, passion, and determination.

At Workwear Outfitters we make purpose-built uniforms for all those men and women in the transportation and warehousing industry. We offer a wide range of products across our full lineup of brands. We know workers, we know uniforms, and we know the importance that uniforms play in the day-to-day lives of your employees.

# ANSI / ISEA 107-2105 GARMENT CLASSIFICATION GUIDE

Compliant Safety Garments are classified as follows:

**TYPE 0, CLASS 1** 

Intended for use in environments where there are struck-by hazards from moving vehicles, equipment & machinery <u>not</u> operating on public access rights of way or temporary traffic control zones.

HI-VISIBILITY RIPSTOP
COLOR BLOCK WORK SHIRT

Short & Long Sleeve

• Warehouse Worker - pg. 58

**TYPE R, CLASS 2** 

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 2 garments require the use of greater amounts of high-visibility materials which help distinguish between a human and an inanimate object.

#### **HI-VISIBILITY SAFETY VEST**

- Warehouse Worker pg. 59
- Manager/Sales pg. 86

**TYPE R, CLASS 3** 

Intended for use by personnel exposed to vehicular trafic from public access rights of way or roadway temporary traffic control zones. Class 3 garments mandate an even higher standard of visibility for workers in moving, complex backgrounds.

# HI-VISIBILITY RIPSTOP WORK SHIRT WITH MIMIX & OILBLOK

Short & Long Sleeve

• Fleet Mechanic - pg. 73

**HI-VISIBILITY COLOR BLOCK UNIFORM SHIRT** 

• Truck Driver - pg. 48

**HI-VISIBILITY LIGHTWEIGHT LONG SLEEVE T-SHIRT** 

• Truck Driver - pg. 48

**HI-VISIBILITY PERFORMANCE** T-SHIRT, Short & Long Sleeve

- Truck Driver pg. 46
- Warehouse Worker pg. 59

**HI-VISIBILITY LINED BOMBER JACKET** 

• Truck Driver - pg. 49

**DELUXE HI-VISIBILITY COLOR BLOCK SOFT SHELL JACKET** 

• Truck Driver - pg. 46

HI-VISIBILITY DELUXE COLOR BLOCK **COVERALL WITH REFLECTIVE TRIM**

# **HI-VISIBILITY SPECIFIC:**

#### HI-VISIBILITY - TYPE 0, CLASS 1

Intended for use in environments where there are struck-by hazards from moving vehicles, equipment and machinery not operating on public access rights of way or temporary traffic control zones.

#### **HI-VISIBILITY TYPE R CLASS 2**

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 2 garments require the use of greater amounts of high-visibility materials which help distinguish between a human and an inanimate object.

#### **HI-VISIBILITY TYPE R CLASS 3**

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 3 garments mandate an even higher standard of visibility for workers in moving, complex backgrounds.

#### **UPF 40 RATING**

Ultraviolet Protection Factor - A rating designed for fabric and clothing that specifically measures the level of sun protection. UPF measures both UVA and UVB rays.

# TERRA

#### **NEW PRODUCT FOR 2020**

Short sleeved FR shirts are not intended to be worn as single layer protection because they do not fully cover potentially exposed areas as completely as possible.

#### **CATEGORY 1 PROTECTION**

Arc-rated FR long-sleeve shirt and FR pants or FR coverall with a required minimum Arc Rating of 4 cal/cm<sup>2</sup>.

#### **CATEGORY 2 PROTECTION**

Arc-rated FR long-sleeve shirt and FR pants or FR coverall with a required minimum Arc Rating of 8 cal/cm $^2$ .

#### **CATEGORY 3 PROTECTION**

Arc-rated FR long-sleeve shirt and pants or FR coverall, arc flash suit, balaclavas etc. selected so that the system arc rating meets a required minimum Arc Rating of 25 cal/cm<sup>2</sup>.

#### **CATEGORY 4 PROTECTION**

Arc-rated FR long-sleeve shirt and pants or FR coverall, and arc flash suit selected so that the system arc rating meets a required minimum Arc Rating of 40 cal/cm<sup>2</sup>. CAT4 outerwear is not equivalent to 40 cal switching gear/flash suit and does not offer equivalent protection to workers engaged in switching and/or similar activities.

#### NFPA<sup>®</sup> 2112 COMPLIANT

Bulwark\* Protective Apparel offers flame-resistant protective garments that are certified by UL to meet the requirements of NFPA\* 2112 Standard on Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2018 Edition. NFPA\* 2113 Standard on Selection, Care, Use, and Maintenance of Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2020 Edition, requires that garments cover the upper and lower body and flammable underlayers as completely as possible. Bulwark\* garments meet this requirement either as a single garment such as a coverall or when worn with another certified garment such as a shirt or pants to provide both upper and lower body coverage.

This **BULWARK** \*FR collection has been designed according to EU Regulation 2016/425 and specifically to the European Standards ISO 13688:2013 (General Requirements for protective clothing), EN ISO 11612:2015 (Protective Clothing for Industrial workers exposed to heat and flame), EN 1149-5:2008 (Protective clothing – Electrostatic properties) and IEC 61482-2:2009 (Protective Clothing against the thermal hazards of an electric arc) to the referenced performance levels. ECType examination by a Notified Body has proven that the clothing meets the fundamental requirements as described in the European Directive EU Regulation 2016/425. The CE mark is the visible sign of our compliant PPE.

Do not use bleach, hydrogen peroxide, starch or fabric softeners on any Bulwark garment. Please visit bulwark.com for complete laundry instructions.

INDUSTRIAL LAUNDER -HEAVY SOIL

INDUSTRIAL LAUNDER -LIGHT SOIL

**HOME WASH** 

#### **CSA GREEN TRIANGLE**

The CSA Green Triangle indicates sole puncture protection with a Grade 1 Protective toe to withstand impacts up to 125 joules.

#### **CSA WHITE RECTANGLE**

#### **CSA YELLOW RECTANGLE**

The CSA Yellow rectangle with a green "SD" and grounding symbol indicates soles are static-dissipative.

# CLEANFEET' ODOR CONTROL TREATMENT

Cleanfeet prevents odor before it starts.

#### **METGUARD IMPACT TEST**

A new standard from CSA - only Metguards bearing the "M" emblem are CSA approved.

#### 3M™ SCOTCHLITE™

3M is a pioneer in developing the science behind retro-reflection and has been advancing the technology for over 70 years.

#### XRD' INTERNAL METGUARD

New breakthrough flexible materials with XRD\* technology.

#### TERRA FIRMA-FLEX

Lightweight metal free technology, exclusive to TERRA.

**COMPOSITE SAFETY TOE** 

**ELECTRICAL HAZARD** 

SLIP RESISTANT

WATERPROOF

**METAL FREE** 

ASTM TESTED

STATIC DISSPATIVE +

#### **METAL-FREE TECHNOLOGY**

Kodiak\* ROCKFIBRE\* footwear is manuafctured with a metal-free protective toe and punctureresistant plate.

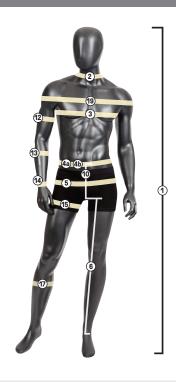

#### **KODIAK® SOS SMELL OUT SCIENCE**

Innovative ordor control technology with beneficial microbes that break down odor causing bacteria.

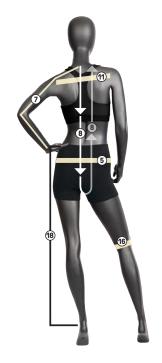

MEN'S MEASUREMENT ZONES

WOMEN'S MEASUREMENT ZONES

#### 1. HEIGHT

Stand straight against a wall without your shoes. Make a mark level with the top of your head. Measure from this point down to the floor.

#### 2. NECK

Measure around the base of the neck where a collared shirt would fit, or measure a collar band on a shirt that fits you well.

#### 3. CHEST / BUST

Measure the fullest part of your chest/bust. Hold the tape firmly, but not tightly. Be sure the tape is level and straight across your back. Stand naturally.

#### 4a. WAIST / MID-SECTION

First, remove your belt. Then, measure over shirt (not over pants) at 1/2" to 1" below the navel. Hold the tape firmly but not tightly. If pants are worn under a protruding abdomen, measure where pants are typically worn. Note: For women, please refer to the hip measurement as the key point of measure for fitting pants.

# 4b. WAIST / MID-SECTION

For shirts and covering garments such as coveralls - measure midsection over clothing around the fullest part of the abdomen. **Note**: Include both "A" and "B" measurements if ordering multiple garments.

#### 5. HIPS

Stand with your heels together. Measure around the fullest part of the hips. Hold the tape measure straight and level.

#### 6. INSEAM

Standing straight, measure the distance from the crotch to just below the ankle bone. OR - using similar style pants that fit you well: lay garment flat with front and back creases and smooth. Measure along the inside seam of one leg from the bottom of the hem to the crotch.

#### 7. SLEEVE

Bend the elbow slightly. Start at the center back of the neck and measure across the shoulder to the elbow and down to the wrist bone.

#### 8. TRUNK

Measure from base of neck (front) down around crotch and back up to the bottom of the collar. (For coveralls only)

#### 9. CAP / HAT SIZE

Measure the circumference of the head at it's widest diameter, approximately 1/8" above the ears.

#### 10. FRONT & BACK RISES

**FRONT** - This is the distance from the center front at the top of the waistband to the intersection of the crotch seams. **BACK** - This is the distance from the center back at the top of the waistband to the intersection of the crotch seams.

#### 11. ACROSS SHOULDER

While standing with arms down, measure across the back from one shoulder joint to the other.

#### 12. UPPER ARM / BICEP

Measure the maximum circumference of the upper arm just below the under arm.

#### 13. FOREARM

Measure the maximum circumference of the forearm at approximately 6" above the wrist.

#### **14. WRIST**

Measure the wrist circumference over the wrist bone.

#### **15. THIGH**

Measure around thigh (parallel to floor), below crotch.

#### **16. KNEE**

With the leg straight, measure the knee circumference over the knee cap and parallel to the floor.

#### **17. CALF**

Measure the circumference of the largest part of the lower leg approximately half way between the knee and ankle and parallel to the floor.

#### 18. OUTSEAM

Measure along the outside of the leg from the top of the waistband to the bottom of the hem of just below the ankle bone. OR - lay garment flat, measure along outseam from top of band to bottom of hem.

#### 19. OVERARM

With arms at the sides, measure around the broadest part of the shoulders and upper arms, keeping the tape level at all times. If overarm measurement is more than 7" larger than chest measurement, go up one size.

# The following guidelines are important in measuring for proper fit

- · Give all measurements in inches.
- If the person's measurements are between sizes, order the larger size.

For example: if a man's neck measures  $15\frac{3}{4}$ " you should order size large in a short sleeve shirt or a  $16-16\frac{1}{2}$ " in a long sleeve shirt.

- For greatest accuracy, have someone take measurements rather than allowing customers to measure themselves.
- The tape measure should be pulled snug, not tight.
- Check the size scale of all garments being ordered to ensure that all measurements were taken at the proper points.

#### **MEN'S SHIRTS**

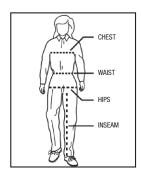

- NECK: Measurement is the circumference of the neck as illustrated.
- SLEEVE LENGTH: Measured by placing one end of the tape at bottom
  of the collar at the center of the back and marking the distance around
  the elbow to bottom of the wrist. It is often helpful to have the arm
  slightly bent.
- CHEST: Taken at the fullest point of the chest, keeping tape under arms and around shoulder blades. Hold tape level and firmly butnot tight.

### MEN'S TROUSERS, JEANS AND BIB OVERALLS

- WAIST: Measurement is taken at the top of the hipbone over shirt (not over pants). Tape should be held snug not tight.
- INSEAM: Measurement taken from base of the crotch to top of the shoe or boot. For jeans, add 1".
- It is advisable to ask the person being measured how he or she wears their trousers. Not everyone wears their trousers or jeans the same length or height on their hips.

#### **JACKETS**

- CHEST SIZE: Taken at the fullest point of the chest, keeping tape under arms and around shoulder blades. Measurement should be taken over clothing, preferably over same garment or types ofgarments to be worn with the jacket.
- SLEEVE LENGTH: Measured by placing one end of the tape at the bottom of the collar at the center of the back and marking the distance around the elbow to the outer edge of the wrist.

#### **WOMEN'S WEAR**

- CHEST: Measurement is taken at the fullest point of the bust. Measure across shoulder blades with arms relaxed down at sides, keeping tape parallel to the floor. Hold tape level and firmly but not tight.
- WAIST: Measurement is taken around the natural waistline. Keep the measuring tape comfortably loose.
- HIP: Measurement is taken by standing with heels together. Keep tape straight and parallel to the floor, measure around the fullest part.

#### PRODUCT SPECIFICATIONS

All trademark and logos shown in this catalog are for the product illustration only and are not available to a customer, nor are they an endorsement by or for any person or other entity. At time of order, please provide the appropriate proof of authorization for your use of trademarks, copyrights, patents and other intellectual property.

Bulwark® garments are not intended for fire entry, structural or wildlands fire fighting activities and provide no personal protection from chemical exposures. They should be removed at once if fouled with flammable material. To prevent generation of potentially hazardous static electricity, do not don or remove any garments in a hazardous area.

Bulwark® garments are not intended for personal, family or household use as defined in the Manguson-Moss Warranty Act, 15 U.S.C. 2301-2312. For latest information, visit our website at BULWARK.COM.

#### ARC RATINGS

Arc ratings published in this catalog are supplied to us by our fabric suppliers or are the result of our own arc testing. An arc rating can be reported in cal/cm² as either ATPV or EBT and is the incident energy at which there is 50% probability of occurrence of a second degree burn or of fabric breakopen, respectively. As with all tests, some level of variation in test results is normal and expected among fabrics of identical fiber content and nominal weight. In order to assist end users with their hazard analysis by providing the most conservative arc rating, Bulwark\* will publish the lowest arc rating for that fabric weight in our catalog and on our garment label.

Bulwark garments are designed for continuous wear. They meet applicable performance standard requirements, such as ASTM F2302, Standard Performance Specification for Labeling Protective Clothing as Heat and Flame Resistant National Fire Protection Association (NFPA ) Standard 70E.

Standard for Electrical Safety in the Workplace, ASTM Standard F1506, Flame-Resistant Materials for Wearing Apparel for Use by Electrical Workers Exposed to Momentary Electric Arc and Related Thermal Hazards. Refer to individual garment labels to confirm compliance with specific performance standards. Because these fabrics are flame-resistant, they are acceptable under the Occupational Safety & Health Administration (OSHA) Final Rule 1910.269. Final Rule on Electrical Protective Equipment.

Bulwark®, CoolTouch® 2, EXCEL FR®, ComforTouch® and iQ Series® are registered trademarks of Imagewear Apparel Corporation. Nomex®,
